

March 10, 2009

Dear Doctor:

I'm pleased to announce our next seminar "The Perio-Restorative Connection" on Wednesday April 22, 2009 at the LaGrange Country Club in LaGrange, IL. Please note the seminar starts at 5:00p.m. and runs until 9:00p.m. This seminar is by invitation only.

Our speakers are David Newkirk, D.D.S. and Robert Pick, D.D.S. Dr. Newkirk has a full time private practice of Restorative and Cosmetic Dentistry in Naperville, IL. He is an instructor at the world famous Dawson Center for Advanced Dental Studies. He teaches Top 10% with Dr. Pete Dawson, Digital Photography and Seminar I at the center. Dr. Pick has a full time private practice of Periodontics and Implants in Chicago, IL. He is a member of the attending staff of Northwestern Memorial Hospital and a Clinical Associate Professor of Surgery at Northwestern University Medical School. Both Dr. Newkirk and Dr. Pick have recently been included in the premiere issue of *The Best Dentists in America* (which is peer reviewed).

Seminar topics include the perio-restorative relationship, the differential diagnosis of a "gummy smile" and the highly important biologic width and how to do surgical "crown lengthening by the numbers". Also included is how guided tissue regeneration has shifted periodontics from "removal and resection to replacement and regeneration". See the attached seminar description for more topics covered throughout the evening.

Please mark your calendar and send in the attached registration form to reserve this date. Thank you for your continued support and please call me if you have any questions regarding this outstanding continuing education program.

**In order to provide continued quality service, please include your Academy of General Dentistry member number on the Registration Form. This will allow our office to submit CE credits to the AGD for our course attendees.**

Sincerely yours,

Timothy P. Walsh, D.D.S.
